## UPDATES: MARCH 2022

Welcome, **Patrick Kagonzo**, to the Home of Hope (photo right). He is an 8-year-old boy, whose mother had passed away and whose father mistreated him. He arrived with some mischievous behaviors, but has improved dramatically with counseling and the support of the HOH staff.

The **school year** began in February (a month late due to extended 2021 exams and COVID).

Please pray that a **Volunteer-in-Mission Team** will be able to travel to Nyadire mid-June. Stay alert for a possible mail call!

**COVID** cases are declining again, yet masking mandates remain in place. Nyadire has seen some mild cases. Nyadire Hospital is a vaccination center. All hospital staff and teachers have been vaccinated and efforts are now underway to vaccinated students 16+ years.

More **goats** are coming to the HOH!!! Funds have been donated by a Sunday School and youth program to purchase additional goats for the Home of Hope. This will provide an additional source of milk and protein for the children.

The **container** has arrived!!! Filled with all kinds of TNC donations and purchases (medical stuffs, Pop-Up Classrooms (with computers), eyeglasses, etc., the HOH received books, children's magazines, canvas prints, and a myriad of materials!

**HOH giving:** Each of you has an established way of giving, whether online or by check, monthly, quarterly, or yearly. A form is attached for your needs.
